

Colorado Mountain Flying

Mountain flying is a very different duck than the flying you do at home, but that doesn't mean you can't safely experience the rugged beauty of the rocky mountains from your airplane. Bill Standerfer has been flying in Colorado and the west for more than 45 years and has been teaching mountain flying for more than 25 years. Learn from a seasoned mountain flyer before you head out.

Directions: The FAA Safety Center Forum is located next to the Air Traffic Control Tower.

A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafetyTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
